The Rumson School District

Multiple Disabilities (MD) Program

A District Snapshot

Program Highlights

Sensory-Friendly Classroom: Designed to meet sensory processing needs with calming spaces, fidget tools, and individualized schedules.

Technology Integration: Use of assistive technology like communication devices to support learning and socialization.

Parent Collaboration: Regular updates and meetings to ensure that parents are an integral part of the educational team.

Positive Behavior Support: Implementation of a behavioral management plan to reinforce positive behaviors and ensure a safe, nurturing environment.

Why Rumson?

Inclusive & Individualized Learning : Tailored educational experiences for each student, addressing both academic and life skills.

Multidisciplinary Support : Access to speech, occupational therapy, and physical therapy throughout the day to ensure holistic development.

Collaborative Team Approach : Dedicated special education teachers work closely with therapists and support staff to create the most effective learning environment.

Small Class Sizes : Fostering one-on-one attention and a comfortable learning environment where every child's needs are met.
